Management's Message

Commenting on the performance, Mr. Pallak Seth, Vice-Chairman, PDS Multinational Fashions, said,

“Our operational performance during the period was marked by new customer additions and gains from existing reference base. The potential across markets is encouraging and our team is doing extremely well in customer retention, maintaining and enhancing customer relationships. Today, our customer profile includes over 200 leading brands and retailers in the value to mid-market sector and we believe, we are well on-track to expanding outreach to newer clients and geographies in the upcoming months.”

The ‘Own Manufacturing Business’ segment is tracking healthy progress in Sri Lanka and we are planning to roll out our two state-of-the-art manufacturing facilities in Bangladesh in FY18. The investments behind our new manufacturing ventures resulted in an adverse impact on our profitability performance during the quarter. Although we anticipate these investments to slightly impact business results in the coming quarters as well, we believe, overall, this will set us up for stronger growth, going forward.”
