The manufacturing segment reported a growth of 92% with a topline to ₹547cr vs ₹285cr in the last financial year. The initiatives to fill capacities and drive efficiencies translated into losses after tax declining by 80% in the financial year. Further, in the fourth quarter ended 31st March 2022, this segment reported profit after tax margins of 2.7%. The continued focus on higher efficiencies and disciplined execution would result in full-year profitability achievement in FY2022-23.

Mr. Pallak Seth, Vice Chairman commented “We are pleased to announce that PDS has crossed the \$1bn topline mark in the financial year 2022. This year we have witnessed long-term association with leading brands and retailers offering them “Sourcing as a Service” for exclusive territories including Hanes Brands in Bangladesh and S.Oliver in India. Further, we are also witnessing sourcing opportunities that are unfolding with retailers and brands increasingly seeking to partner with integrated supply chain players like PDS. Given these opportunities, we are actively exploring avenues for expanding and strengthening our footprint in key geographies like Egypt, Vietnam, Jordon, and India which benefit from nearshoring and China+1 opportunities respectively.”

Commenting on the results, **Mr. Sanjay Jain, Group CEO** added, “This financial year has been an exciting year for us. Despite the disruptions that have impacted the industry and value chain, we achieved high growth of 42% compared to last year and reported a 38% return on capital employed. In Q4 FY22, our manufacturing operations turned around and going forward this segment is expected to contribute to the bottom line. Our stringent review and control mechanisms have enabled us to operate with negative working capital days while also achieving negative net debt. However, there are macro and geopolitical events that have a bearing on our operations, and we as an organization are focused on treading the journey cautiously with our eye on sustaining our growth and profitability momentum.”

The operating performance further translated into the Company achieving negative working capital of -ve 3 days vs +5 days in the last year. This additionally translated into a net debt reduction from ₹59cr last year to net cash of ₹41cr this year. This combination of operational efficiencies and financial prudence has resulted in the Company achieving strong leverage ratios and robust return ratios with a ROCE of 38% and ROE of 31%.

In line with the dividend distribution policy adopted last year, the Company declared* a 238% dividend of ₹23.85 per share, translating into a 25% EPS payout.
