LLP, Chartered Accountants, the Statutory Auditors of PDS Multinational Fashions Limited ("the Company"), have examined the compliance of conditions of Corporate Governance by the Company, for the year ended on 31st March 2019, as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and paras C and D of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended ("SEBI Listing Regulations").

MANAGEMENT'S RESPONSIBILITY

2. The compliance of conditions of Corporate Governance is the responsibility of the Management. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure compliance with the conditions of the Corporate Governance stipulated in the SEBI Listing Regulations.

AUDITORS' RESPONSIBILITY

3. Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring compliance with the condition of the Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
4. We have examined the books of account and other relevant records and documents maintained by the Company for the purposes of providing reasonable assurance on the compliance with Corporate Governance requirements by the Company.
5. We have carried out an examination of the relevant records of the Company in accordance with the Guidance Note on Certification of Corporate Governance issued by the Institute of the Chartered Accountants of India (the ICAI), the Standards on Auditing specified under Section 143(10) of the Companies Act 2013, in so far as applicable for the purpose of this certificate and as per the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) issued by the ICAI which requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.
6. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

OPINION

7. Based on our examination of the relevant records and according to the information and explanations provided to us and the representations provided by the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46(2) and paras C and D of Schedule V of the Listing Regulations during the year ended 31 March 2019.
8. We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

GLOBAL ECONOMY

The year 2017 and early 2018 saw a healthy growth in global economic activity. However, a combination of macro-factors such as increased US–China trade escalations, credit tightening in China, macroeconomic stress in Argentina and Turkey, disruptions to the auto sector in Germany, and financial tightening in the larger advanced economies resulted in a weakened global growth, especially in the second half of 2018.

Global growth softened to 3.6 percent in 2018 and is projected to decline further to 3.3 percent in 2019. The World Economic Outlook (WEO) projected a slowdown in growth in 2019 for 70 percent of the world economy. However, although the global growth is set to moderate in the near-term, the second half of 2019 is expected to see an uptick, supported by a confluence of factors such as policy accommodation by major economies, the ongoing buildup of policy stimulus in China, a gradual stabilization of conditions in emerging markets and a healthy outlook for US–China trade tensions.

With improvements expected in the second half of 2019, global economic growth in 2020 is projected to return to 3.6 percent. Latest reports suggest that growth in advanced economies will continue to slow gradually as the impact of US fiscal stimulus fades and growth tends toward the modest potential for the group, given ageing trends and lower productivity growth. Growth in emerging market and developing economies will stabilize at around 5 percent, bolstered mainly by growth in China and India and their increasing weights in world income.

The developed markets, emerging and developing economies offer ample opportunity for growth in the longer term and the Company remains confident of its ability to capitalize on these long-term opportunities.

INDIAN ECONOMY

Financial year 2018-19 was a year of recovery for the Indian economy as disruptions related to demonetisation and Goods and Services Tax (GST) smoothed and the country slightly recuperated from the cyclical and structural bottlenecks witnessed over the past two years.

The Indian Government has undertaken several socio-economic reforms in the last few years that have aided in the welfare of the citizens, stabilized the financial structure, promoted growth of the economy, improved investments and strengthened the overall business environment in the country. According to CRISIL, the Indian economy has so far maintained growth mainly on public investments, and is estimated to grow at 7.2% in FY19. The International Monetary Fund, which has lowered the global growth estimates, has retained its India growth forecast for current year at 7.3%. Further, as per the recent World Bank report, India is a top improver in the Ease of Doing Business Rankings for the second

year in a row. India has improved 65 places from 142 to 77 in span of last 4 years, which is a remarkable achievement in itself.

With the indicators of industrial production, investment demand, auto sales and exports showing recovery, India's growth outlook remains promising and is expected to strengthen further in the coming years. The International Monetary Fund (IMF) remains bullish on India's growth potential and has forecasted growth at 7.5% in FY20 and 7.7% in FY21. This growth is largely expected to be lifted by strong private consumption as well as fading transitory effects of currency fluctuation, global commodity prices, implementation of the GST and stable outlook

COMPANY PERFORMANCE

2018 was yet another challenging year for the broader retail landscape across key markets of Europe and UK. Subdued consumer sentiment and decreasing consumer spending power led to declining footfalls in the retail market while pricing pressures across sourcing markets further resulted in tough market conditions. Amidst this business environment, the Company reported a strong operational and financial performance in FY 2019.

Total net revenues during the fiscal stood at ₹ 6,502 crore, higher by 31% Y-o-Y. Healthy growth and supplier consolidation undertaken by key customers resulted in strong revenues. Further, the appreciation of the INR currency against the US dollar assisted growth. Income during the fiscal stood at ₹ 948 crore, higher by 40%. On the profitability front, the EBITDA stood at ₹ 138 crore, significantly higher by 127% YoY. Strong growth in revenues translated into higher profitability during the fiscal. PAT during the year stood at ₹ 79 crore as against ₹ 20 crore in FY18, clocking a growth of 305% YoY.

On the segmental front, the Company's sourcing and manufacturing business lines have delivered healthy results in-sync with internal targets. The Sourcing and others business segment, which contributed to 96% of the total revenues, delivered a strong revenue growth of 28% to ₹ 6,248 crore in FY19. This, translated into a healthy EBITDA growth of 57% YoY to ₹ 168 crore.

The manufacturing business vertical, which was launched by the Company in FY2017, is progressing well and is under its early stages of business operations. The Company is actively undertaking a gamut of various initiatives under marketing, operations, training, technological enhancement and team development to enhance operations, boost productivity and improve efficiencies for the vertical. The business during the fiscal reported healthy revenues of ₹ 238 crore as against ₹ 60 crore in FY18, delivering a jump of over 4 times in revenues. Losses at the EBITDA level reduced significantly to ₹ 30 crore in FY19 as against ₹ 46 crore in FY18. As the business segment gains further momentum, the Company expects performance to improve and the business to reach optimum profitability.

PDS Multinational Fashions Limited

On a consolidated level, apparel revenues contributed to 95% of the overall revenues. In terms of geography, turnover of the UK & Europe business amounted to 86.4% for the year, America grew to 8.8% followed by Asia and Middle East at 3.4% and Australia at 0.7% respectively. The Company continues to direct higher focus towards expanding footprint in targeted high-potential geographies such as the BRIC region, US, Middle East, Australia and LATAM, while also strengthening and laterally growing existing relations in the established markets of UK & Europe.

On the operational front, the Company has marked a robust growth in terms of geographic expansion and customer additions. The Company in FY 2019 added over 29 new customers across the US, Asia and European markets. Business from repeat customers continues to maintain a solid momentum. Strong contribution from new customer acquisitions and repeat accounts led to a healthy financial performance during FY2019.

In FY2019, the Company increased its total employee strength during the year, which resulted in increased employee cost of ₹ 61.80 crore. The Company operates a Design Hub in the UK, which is supported by over 150 highly qualified in-house designers and product development teams across geographies.

In order to mitigate the inventory risk associated with the business model, the Company ensures that certain checkpoints are met before commencing order production, which essentially includes pre-selling all orders before processing production, securing credit payment terms and partnering with only AAA+ rated customers.

The Company continues to be unreservedly committed to compliance and adopting stringent Ethical Sourcing practices. PDS Multinational's factories and partner factories are audited every three to six months and the quarterly and bi-annual compliance document is then reported to the PDS Board and not to individual business CEOs, ensuring that the highest level of transparency, ethics, and social compliance is being followed across business levels. The Company has a well spread out team of auditors strategically located in key sourcing countries like Bangladesh, India, Sri Lanka, China and Turkey. Navex Global, a tool allowing employees and business associates to report any issues relating to fraud, abuse, harassment, misconduct, further helps cultivate a respectable and a positive work environment.

On the balance sheet front, the fiscal saw stable net worth, streamlined debtors and healthy capital structure during the year. The Company continued to enjoy a healthy cash position at ₹ 370.2 crore as on March 31, 2019. An analysis of the **Strengths, Weaknesses, Opportunities and Threats** that your Company faces is possibly the best way to discuss your Company's business operations

STRENGTHS

Brand Visibility

PDS Multinational Fashions is one of the leading global organizations, a leading strategic sourcing partner and manufacturer to major brands and retailers. The brand, over the years, has well-established itself in the global market with solid customer relationships with over 190+ brands and retailers, healthy trade relations with sourcing partners and an overall high-quality and committed compliant business model. The Company operated on a global scale covering over 50 offices & 19 countries and has an employee base of 1,800 associates and over 5,100 factory workers. With presence spanning across three decades, the Company has grown leaps and bounds achieving multiple milestones in its journey. check these figures with swami for consistency.

Diverse and Experienced Management Team

The Company has a strong and a dedicated management team comprising promoter family and senior professionals with vast experience in areas ranging from design, manufacturing, sourcing and distribution, Finance & other business support functions. The Company also supports a wide network of partner factories that run their own business units within the cultural and financial framework of the group. This, also allows the Company to optimize costs related to labor, production and logistic arenas.

Presence in high-quality and cost-effective sourcing markets

The Company has established an expansive integrated network across its key sourcing geographies such as Bangladesh, Cambodia, China, India, Morocco, Myanmar, Pakistan, Sri Lanka, and Turkey. Further, the Company also has a long term & exclusive agreements with some of its marquee distributors. By entering into sourcing agreements, the Company is well placed compared to its peers who are subjected to sourcing and pricing uncertainties. The established and growing network offer a series of benefits such as multiple touch points, business scale, brand reach and elevation of business capabilities.

'One-stop shop' service for customers

PDS Multinational, over the years, has established itself as a one-stop shop for its global customers providing services right from product design and development, thorough and cost-effective raw material sourcing, production and logistics management, quality testing and assurance to shipping and on-site testing. This, helps offer a host of benefits to its clients comprising of high-end retailers and brands

Financial Strength

Backed by solid financials, the Company enjoys strong support from its bankers across the geographical areas it functions in. PDS Multinational enjoys credit and working capital limits of USD 287 million, this is one of the best in the industry. It also continues to draw steady and unwavering support from its investors, partners,

and bankers vindicating their support in Company's executing capabilities.

WEAKNESSES

Concentration of revenues in markets of Europe & UK

PDS accrues bulk of its business from the established markets of EU & UK. For FY19, 86% of the Company's overall revenues came from these markets. Given that more than 85% of the Company's revenue is derived from EU & UK, it exposes the company to a large degree of concentration risk. As a means to lower its risk, the Company is consciously working towards diversifying its revenue mix both in terms of product mix and geographical presence. The Company, over the years, has gradually increased its presence in the other high potential markets of the Americas and Asia by strengthening its distribution network and augmenting brand awareness activities. A combination of the above measures has enabled the Company to lower its dependence over its established markets in recent years.

Business Seasonality

The industry experiences seasonal demand wherein sales volumes are typically higher in the second half of the year. A clear spike is observed at the time of late autumn holiday and Christmas shopping season. To prepare for seasonal sales, our team supplies products to customers well in advance to ensure they reach customers in a timely manner. This usually translates to higher operating costs in the first half of the year. Like with any industry player, it is always challenging to correctly estimate and prepare for demand at a specific time of the year. Overestimation leads to overstocking while underestimation of demand leads to loss of potential revenue.

OPPORTUNITIES

Expansion in Markets

PDS has transformed itself as a company with a global presence. Across the established, untapped and high-potential geographies, the consumers taste, preference and pattern varies. As these different markets evolve, the Company needs to be in tune with the latest consumer trend. In sync, PDS has been staying abreast with the changing demand over the years. PDS' unparalleled passion and desire to meet its customer's requirement has enabled it to stay ahead of its peers. The Company is well positioned to meet the growing demand fueled by increasing consumerism, emerging lifestyles, rising incomes.

Growing consumption in emerging Markets

The Emerging economies are expected to maintain its growth momentum and with increasing purchasing power and improving lifestyle of people, the demand for retail consumption is expected to grow in these markets. PDS, with its growing presence in emerging geographies, is set to benefit from the increase in demand and has been proactively working towards augmenting its distribution spread in nations like Brazil, India, Pakistan, Middle Eastern Countries and the LATAM region.

Supplier consolidation by customers

In light of the challenging global environment and trade uncertainties, many customers are now looking at consolidating their suppliers and streamlining their supply chain to mitigate operational risks. This, in turn, presents huge opportunities for PDS Multinational Fashions to leverage on its leading brand visibility and solid network penetration in markets.

Augmented manufacturing business

PDS multinational Fashions, transformed into an integrated player following setting up of its own manufacturing factories in Bangladesh. Captive units not only help the business retain the

incremental value captured at each stage of product development cycle but also help meet customized needs of the customers. High quality control, in-depth knowledge of the end-to-end process and better operational efficiency enables quicker responses to customer feedback and product layout changes. The Company is now better positioned to further its business in the US and other adjacent markets.

THREATS

Cyclical Nature of the Industry

Apparel Industry given its inherent quality, is to a large extent cyclical in nature given that its fortunes are dependent on varied factors ranging from disposable incomes, consumer spending, shifting consumption patterns, inflation and changing fashion trends. Challenging business environment coupled with uncertain economic prospects further adds to the overall volatility in the business.

Current Market Conditions

The Company's overall operational and financial performance is dependent on stable and predictable political and business environment. At present, the business is functioning in an uncertain environment characterized by heightened geopolitical and business uncertainty. Any slowdown in global economy could impact the purchasing power of the consumers, which in turn could curtail the discretionary spends by the customers leading to reduced business activity.

OUTLOOK

Despite external challenges and a weak retail consumption, the Company reported a stellar performance during the fiscal year 2019 led by supplier consolidation by key customers and increased revenues from customer accruals in the last two fiscals.

On the strategy front, the Company has been making significant strides towards transforming its business model. The established sourcing and other businesses are expanding presence into newer geographies and gaining market share. Similarly, the own manufacturing venture set up in 2017, is successfully building new relations in targeted newer and established geographies. The Company continues to invest behind growth in both these business verticals, while also highlighting their competitive fortes. The enquiries and lead pipeline is marking a steady yet strong growth and with setting up of the own manufacturing venture, the Company expects to report an improved growth in the future as well.

Over the years, the Company has successfully established its presence in newer and emerging markets, where the consumption pattern remains far stronger than developed markets. With improving demand conditions and rapidly rising per capita consumption, the Company is well positioned to leverage on this opportunity and grow business in these newer markets. On the other hand, the established markets of Europe and especially UK, although facing challenges in terms of consumer sentiment, continues to derive higher growth led by supplier consolidation.

We are witnessing buoyancy in enquiries and enhanced growth prospects for our business segments across the established and newer markets. The fundamentals of our business remain strong and with the many initiatives undertaken during the year such as expanding customer base, strengthening sourcing business, growing and establishing manufacturing operations, focus on enhancing contribution from untapped and high potential markets, the Company maintains a positive growth outlook. Overall, we are very pleased with our progress in driving the business operations and remain confident of continuing this growth momentum in the years ahead.

Independent Auditor's Report

To The Members of PDS Multinational Fashions Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **PDS Multinational Fashions Limited** ("the Company"), which comprise the balance sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as standalone "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the state of affairs (financial position) of the Company as at March 31, 2019, and its profit (financial performance including comprehensive income), its cash flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matters	How our audit addressed the key audit matter
1.	Recognition of Tax credits The Company has recognised Minimum Alternate Tax (MAT) credit receivable of ₹ 12.68 lakhs and Deferred Tax Assets of ₹ 69.24 lakhs in financial statements as at March 31, 2019. The recognition of MAT credit and Deferred Tax Assets (together referred to as 'Tax Credits' hereinafter) is a Key Audit Matter as the recoverability of such tax credits within the allowed frame involves significant estimate of the financial projections availability of sufficient taxable income in the future and significant judgements in the interpretation of tax regulations and tax positions adopted by the Company.	<p>Our Audit procedures in relation to recognition of tax credits includes the following:</p> <ul style="list-style-type: none">• Evaluated Company's accounting policies with respect to recognition of tax credits in accordance with Ind AS 12 'Income Taxes'.• We assessed the Management's long term financial projections and the key assumptions used in the projections by comparing it to the approved business plan and projections.• We involved our tax specialists to evaluate the Company's tax position by comparing it with prior years and past precedents.• We assessed the disclosures in accordance with the requirements of Ind AS 12 'Income Taxes'. <p>Our procedures as mentioned above did not identify any findings that are significant for the financial statements as whole in respect of recognition of tax credits.</p>

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon. The Board of director's report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibility of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

PDS Multinational Fashions Limited

Annexure 'B' to the Independent Auditors' Report of even date on the standalone financial statement of PDS Multinational Fashions Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **PDS Multinational Fashions Limited ("the Company")** as of March 31, 2019 in conjunction with our audit of the Ind AS standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2019, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to financial statements for the year ended March 31, 2019

Note 1: Corporate Information

PDS Multinational Fashions Limited is a Public Limited Company (hereinafter referred as 'the Company') domiciled in India and has its registered office at 758 & 759, 2nd Floor, 19th Main, HSR Layout, Sector-II, Bangalore - 560102, Karnataka. The Company is engaged in trading of ready to wear apparels, providing services to group companies engaged in the export of ready to wear apparels and sourcing & distribution of their products. The Company is also engaged in the business of holding, owing, leasing or licensing real estate. The Company has its primary listings on Bombay Stock Exchange and National Stock Exchange in India.

The financial statement are approved by the Board of Directors in their Board Meeting held on May 29, 2019.

Note 2: Statement of Compliance

The Financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Companies Act, 2013, as applicable.

The accounting policies are applied consistently to all the periods presented in the financial statements.

Basis of Preparation and presentation

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the relevant accounting policies mentioned. The financial statements are presented in ₹ and all values are rounded to the nearest Lakhs except otherwise stated.

Going Concern

The board of directors have considered the financial position of the Company at 31st March 2019 and the projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements as well as planned cost and cash improvement actions, and believe that the plan for sustained profitability remains on course.

The board of directors have taken actions to ensure that appropriate long-term cash resources are in place at the date of signing the accounts to fund the Company's operations.

Recent Accounting Pronouncement

In March 2019, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2019, notifying amendments to Ind AS 12 'Income Taxes', introduced the Appendix 'C' to Ind AS 12 'Uncertainty over Income Tax Treatments', amendments to Ind AS 19 'Employee Benefits' and also introduced new standard Ind AS 116 'Leases'. These amendments rules are applicable to the Company from April 1, 2019.

Ind AS 116 Leases: On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees.

Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments:

On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which are to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax Credits and tax rates.

Amendment to Ind AS 12 – Income taxes: On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement: On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity:

- to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

The Company is currently evaluating the effect of these amendments on the standalone financial statements.

Application of New Accounting Pronouncements

The following Ind As pronouncements pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules 2018, were applied by the Company during the year:

Ind As 115, Revenue from Contracts with Customers with effect from April 1, 2018.

Appendix B to Ind AS 21, Foreign Currency Transactions and advance consideration with effect from April 1, 2018.

Note 3: Significant accounting policies

a) Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates.

Judgements:

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Revenue recognition and presentation

The Company assesses its revenue arrangements against specific criteria, i.e. whether it has exposure to the significant

risks and rewards associated with the sale of goods & rendering of services, in order to determine if it is acting as a principal or as an agent. The Company has concluded that it is operating on a principal to principal basis in all its revenue arrangements.

The Company applies judgement to determine whether each product or service promised to a customer are capable of being distinct, and are distinct in the context of contract, if not the promised service are combined and accounted as a single performance obligation.

For performance obligation where control is transferred over the time, revenues are recognised by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgement and is based on the nature of the promised service to be rendered.

Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Estimates and Assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Estimates and underlying assumptions are reviewed at each balance sheet date. Such changes are reflected in the assumptions when they occur.

i) Income taxes

The Company is subject to income tax laws as applicable in India. Significant judgment is required in determining provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

ii) Contingencies

Contingent Liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal and other claims. By virtue of their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and the use of estimates regarding the outcome of future events.

iii) Recoverability of deferred taxes

In assessing the recoverability of deferred tax assets, management considers whether it is probable that taxable profit will be available against which the losses can be

utilised. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment.

iv) Defined benefit plans

The present value of the gratuity and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes.

b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

Assets:

An asset is treated as current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle.
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Liabilities:

A liability is current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

c) Property, Plant and Equipment (PPE) and Investment Property

The Company had applied for one time transition exemption of considering the carrying cost on the transition date i.e. 1st April 2016 as the deemed cost under Ind AS.

Property, plant and equipment and capital work in progress are stated at cost less accumulated depreciation and

accumulated impairment losses, if any. Such cost includes expenditure that is directly attributable to the acquisition of the asset.

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss within other income or expense (as applicable).

Subsequent Costs: The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item of property, plant and equipment, if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably with the carrying amount of the replaced part getting derecognised. The cost for day-to-day servicing of property, plant and equipment are recognised in statement of profit and loss as and when incurred.

Decommissioning Costs: The present value of expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Capital work in progress: Capital work in progress comprises the cost of fixed assets that are not ready for their intended use at the reporting date.

Depreciation: Depreciation on PPE, except leasehold improvements, is provided on straight-line method over the useful lives of assets as per Schedule II to the Companies Act, 2013. Depreciation for assets purchased / sold during a period is proportionately charged to Statement of Profit & Loss. Leasehold improvements are amortised over the lease term or the useful life of the assets whichever is earlier.

Investment Property

(i) Recognition and measurement

Investment Property comprise of Freehold Land and Building.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The Company had applied for one time transition exemption of considering the carrying cost on the transition date i.e. 1st April 2016 as the deemed cost under Ind AS.

The Company measures investment property using cost based measurement and the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss in the period of derecognition.

(ii) Depreciation

Depreciation on Investment Property is provided, under the Straight Line Method, pro rata to the period of use,

based on useful lives specified in Schedule II to the Companies Act, 2013.

d) Intangible assets

Recognition and measurement

The Company had applied for one time transition exemption of considering the carrying cost on the transition date i.e. 1st April 2016 as the deemed cost under Ind AS.

Intangible assets that are acquired by the Company are measured initially at cost. Intangible assets with finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Amortisation: Intangible assets, with infinite lives, are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the assets are available to the Company for their use. In case of the trade mark capitalised, the Company is amortizing it over period of 5 years from the date of capitalisation. Specialized softwares are amortized over a period of 5 years or license period whichever is earlier.

e) Borrowing costs

Borrowing costs consists of interest and amortization of ancillary costs that an entity incurs in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

f) Foreign Currency Transaction

Functional and presentational currency

The Company's financial statements are presented in Indian Rupees (₹) which is also the Company's functional currency. Functional currency is the currency of the primary economic environment in which a Company operates and is normally the currency in which the Company primarily generates and expends cash. All the financial information presented in ₹ in lakhs except where otherwise stated.

Initial recognition

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Measurement at the reporting date

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured in terms of historical cost are not retranslated.

g) Revenue Recognition

Effective 01 April 2018, the Company has adopted Indian

Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers'. The revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, the company follows the five step approach as under:

- (i) Identify the contract with a customer
- (ii) identify the performance obligations in the contract
- (iii) determine the transaction price,
- (iv) allocate the transaction price to the performance obligations in the contract
- (v) recognize revenues when a performance obligation is satisfied.

The comparative amounts of revenue and the corresponding assets/ liabilities have not been retrospectively adjusted. The effect on adoption of Ind AS-115 was insignificant.

Other Operating Revenue

Rental income is recognized when services are rendered and same becomes chargeable. Service Income comprises amounts billed for leasing out the property and other support services rendered to entities in accordance with terms of agreements entered into with them.

Other Income

- i) Interest income is recognised on time proportionate basis determined by the amount outstanding and the rate applicable and where no significant uncertainty as to measurability or collectability exists.
- ii) Dividend income is recognized when the right to receive payment is established.

h) Inventories

Inventories, of traded goods, are valued at the lower of cost and net realisable value. Cost includes purchase price, duties, non refundable taxes and all other costs incurred in bringing the inventory to their present location. Cost is calculated on First in First out (FIFO) method.

The comparison of cost and net realisable value is made on an item by item basis. Net realisable value is the estimated selling price in the ordinary course of business; less any estimated costs necessary to make the sale.

i) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. All the lease other than Finance lease are classified as operating lease.

Finance lease

Finance leases are capitalised at the commencement of the lease at lower of present value of minimum lease payments or inception date fair value of the leased property. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of Profit and Loss. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset.

However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease

A lease where risks and rewards incidental to ownership of an asset substantially vest with the lessor is classified as operating lease. Lease payments under operating leases are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

The Company has ascertained that the payments to the lessor that are structured in line with expected general inflation to compensate for the lessor's expected inflationary cost are not straight-lined. Hence, the lease payments are recognised on an accrual basis as per terms of the lease agreement.

j) Employee's Benefits

Short Term Employee Benefits: All employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits. When an employee has rendered service to the Company during an accounting period, the Company recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as an expense unless another Ind AS requires or permits the inclusion of the benefits in the cost of an asset. Benefits such as salaries, wages, bonus and ex-gratia etc. are recognised in Statement of profit and loss in the period in which the employee renders the related service.

Defined Contribution Plan

Provident Fund and Employee State Insurance Schemes are defined contribution plans and contributions paid / payable are recognised as an expense in the Statement of Profit and Loss during the year in which the employee renders the related service.

Defined Benefit Plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee's salary and the tenure of employment. The Company accounts for the liability for gratuity benefits payable in future based on an independent actuarial valuation report using the projected unit credit method as at the year end.

The obligations are measured at the present value of the estimated future cash flows. The discount rate is generally based upon the market yields available on Government bonds at the reporting date with a term that matches that of the liabilities.

Re-measurements, comprising actuarial gains and losses including, the effect of the changes to the asset ceiling (if applicable), is reflected immediately in Other Comprehensive Income in the Statement of Profit and Loss. All other expenses related to defined benefit plans are recognised in Statement of Profit and Loss as employee benefit expenses. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

Other Long term Benefits

Long term compensated absences are provided for on the basis of actuarial valuation, using the projected unit credit

method, at the end of each financial year. Actuarial gains/ losses, if any, are recognised immediately in the Statement of Profit and Loss.

k) Provisions, Contingent liabilities and Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in the case of;

- i) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle obligation;
- ii) a present obligation arising from past events, when no reliable estimate is possible.

Contingent assets are neither recognised nor disclosed. However, when realisation of income is virtually certain, related asset is recognised.

Provision, contingent liabilities and contingent assets are reviewed at each balance sheet date and adjusted where necessary to reflect the current best estimate of obligation or asset.

l) Financial instruments

A financial instrument is a contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity. Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

(i) Initial recognition and measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial asset is initially recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

(ii) Classification and Subsequent measurement

(a) Financial Assets

For purposes of subsequent measurement, financial assets are classified in following categories:

- Financial Asset carried at amortised cost
- Financial Asset at fair value through other comprehensive income (FVTOCI)
- Financial Asset at fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

• Financial Asset carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business

model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

• Financial Asset at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

• Financial Asset at fair value through profit and loss (FVTPL)

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

• Equity investment

Investments representing equity interest in associates/ subsidiary are carried at cost less any provision for impairment. Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. The Company had elected for one time Ind AS 101 exemption and adopted the fair value of its investments in Equity Shares as its deemed cost as at date of transition.

De-recognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised (i.e. removed from the Company's Balance Sheet) when:

- (i) The contractual rights to receive cash flows from the asset has expired, or
- (ii) The Company has transferred its contractual rights to receive cash flows from the financial asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(b) Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, security deposits received etc.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at amortised cost
- Financial liabilities at fair value through profit and loss (FVTPL)

Financial liabilities at Amortized cost

Loans and Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest rate (EIR) method. Income and Expense are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(c) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

m) Impairment of Financial Assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgments in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

n) Impairment of Non-Financial Assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use or its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-

tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

An impairment loss is recognized, if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount and is recognised in statement of profit and loss.

Impairment losses recognised in prior periods are assessed at end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

o) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

p) Taxes on Income

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income (OCI) or in equity). Current tax items are recognized in correlation to the underlying transaction

either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets are offset against current tax liabilities if, and only if, a legally enforceable right exists to set off the recognised amounts and there is an intention either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Minimum Alternate Tax

Minimum Alternate Tax (MAT) paid in the year is charged to the Statement of Profit and Loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period. In accordance with Ind AS 12 Company is grouping MAT credit entitlement with Deferred Tax Assets / Liability (Net).

Deferred Tax

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to

the same taxable entity and the same taxation authority. Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

q) Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash balance on hand, cash balance at banks and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

r) Earnings per share (EPS)

In determining earnings per share, the Company considers the net profit after tax and includes the post tax effect of any extra ordinary items.

i) Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

ii) For the purpose of calculating Diluted Earning per share, the number of shares comprises of weighted average shares considered for deriving basic earning per share and also the weighted average number of equity share which could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. A transaction is considered to be antidilutive if its effect is to increase the amount of EPS, either by lowering the share count or increasing the earnings.

s) Segment Reporting

The Company has the policy of reporting the segments in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is considered to make strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

The contribution payable to these schemes by the Company are at the rates specified in the rules of the schemes.

(All amounts in ₹ lakhs, unless otherwise stated)

b) Defined benefit plans

In accordance with Ind AS 19 “Employee benefits”, an actuarial valuation on the basis of “Projected Unit Credit Method” was carried out, through which the Company is able to determine the present value of obligations. “Projected Unit Credit Method” recognizes each period of service as giving rise to additional unit of employees benefit entitlement and measures each unit separately to built up the final obligation.

i) Gratuity scheme

The Company has defined benefit gratuity plan. Gratuity is calculated as 15 days salary for every completed year of service or part thereof in excess of 6 months and is payable on retirement / termination/ resignation. The benefit vests on completing 5 years of service by the employee. The Company makes provision of such gratuity asset/ Liability in the books of account on the basis of actuarial valuation as per projected unit credit method.

ii) Compensated absences

The Company operates compensated absences plan wherein every employee is entitled to the benefit equivalent to 15 days leave salary for every completed year of service subject to maximum 30 accumulations of leaves. The salary for calculation of earned leave is last drawn salary. The same is payable during the service, early retirement, withdrawal of scheme, resignation by employee or upon death of employee.

c) The following tables summarize the components of net benefit expense recognised in the Statement of profit and loss and amounts recognised in the balance sheet for the defined benefit plan (viz. gratuity and compensated absences). These have been provided on accrual basis, based on year end actuarial valuation.

Note 36 : Fair Value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities

Note 37: Financial risk management objectives and policies

The Company's principal financial liabilities comprise trade and other payables, borrowings, current maturity of borrowings, interest accrued and capital creditors. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets includes Investment in Subsidiaries/Associates, Security Deposits, Trade Receivables, Cash and Cash equivalents, Other Bank Balances.

The Company is exposed to credit risk, liquidity risk and market risk. The Company's senior level oversees the management of these risks.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk applicable in case of the Company primarily includes interest rate risk and currency risk.

i) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's interest bearing debt obligations.

	Increase or decrease in basis points	Effect on profit before tax
31-Mar-19		
INR	+50	(5.92)
INR	-50	5.92
31-Mar-18		
INR	+50	(7.44)
INR	-50	7.44

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

ii) **Foreign currency risk**

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in exchange rates. The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rate, with all other variables held constant.

Particulars	Financial Year	Changes in USD rate	Effect on profit before tax
Advance from Customer	31-Mar-19	+5%	(74.65)
		-5%	74.65
Advance from Customer	31-Mar-18	+5%	(36.69)
		-5%	36.69

(All amounts in ₹ lakhs, unless otherwise stated)

B. Credit risk

Credit risk is the risk that counterparty will default on its contractual obligations resulting in finance loss to the Company. The Company continuously monitors defaults of customers and other counterparties and incorporate this information into its credit risk control. The Company also uses expected credit loss model to assess the impairment loss in trade receivables and makes an allowance of doubtful trade receivables using this model.

i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating. Outstanding customer receivables are regularly monitored.

The ageing analysis of trade receivables as of the reporting date is as follows:

An impairment analysis is performed at each reporting date on an individual basis for major clients. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 35. The Company does not hold any collateral as security.

Particulars	Less than 30 days	30 to 90 days	90 to 180 days	More than 180 days	Total
Trade Receivables as of March 31, 2019	100.41	0.09	-	-	100.50
Trade Receivables as of March 31, 2018	3.88	-	-	-	3.88

C. Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, maintain optimum levels of liquidity to meet its cash and collateral requirements. It maintains adequate sources of financing including loans from banks at an optimised cost.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Note 38 : Segment Reporting

The company's operating segments are established on the basis of those components of the group that are evaluated regularly by the Executive Committee (the 'Chief Operating Decision Maker' as defined in Ind AS 108 - 'Operating Segments'), in deciding how to allocate resources and in assessing performance. These segments are based on the company's management and internal reporting structure. The accounting policies adopted for segment reporting are in line with the accounting policy of the Company. The management has identified the following as two operating segments for the Company:

- i) **Corporate Services** - The Company provides Corporate services for its overseas Subsidiaries and other Group Companies. Corporate Service Income comprises of amounts billed for providing services such as Corporate Strategic/ Management and support services rendered to inter-company affiliate(s) in accordance with terms of agreements entered into with them.
- ii) **Others-Renting of Properties** - The rental income comprises amounts billed for leasing out the property and other support services rendered to entities in accordance with terms of agreements entered into with them.
 - a) Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment.
 - b) Segment Assets and Segment Liabilities represent Assets and Liabilities in respective segments. Investments, tax related assets and other assets and liabilities that cannot be allocated to a segment on reasonable basis have been disclosed as "Unallocated".

Note 42: The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under sections 92-92F of the Income Tax Act 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company regularly updates the documentation for the International transactions entered into with the associated enterprises during the period as required under law. The Management is of the opinion that its international transactions are at arm’s length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

Note 43: No material events have occurred between the balance sheet date to the date of issue of these financial statements that could affect the values stated in the financial statements as at March 31, 2019.

Note 44: The process of receiving balance confirmation from trade receivables/ payables (whether related or non-related parties) & their reconciliation is a regular and continuous process. The balances of certain parties out of these are subject to reconciliation and/ or confirmations as at March 31, 2019.

PDS Multinational Fashions Limited

Independent Auditor's Report

To The Members of PDS Multinational Fashions Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **PDS Multinational Fashions Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at March 31, 2019, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate financial statements and other information in respect of one of the foreign subsidiary, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2019, the consolidated Profit (consolidated financial performance including other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their reports referred to in Other Matters paragraph below is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2019. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

S. No.	Key Audit Matters	How our audit addressed the key audit matter
1.	Recognition of Tax Credits The Holding Company has outstanding Deferred Tax Assets (including MAT credit) of ₹ 141.30 lakhs in financial statements as at March 31, 2019. The recognition of MAT credit and Deferred Tax Assets (together referred to as 'Tax Credits' hereinafter) is a Key Audit Matter as the recoverability of such tax credits within the allowed frame involves significant estimate of the financial projections availability of sufficient taxable income in the future and significant judgements in the interpretation of tax regulations and tax positions adopted by the Holding Company.	<p>Our procedures included, but were not limited to the following:</p> <ul style="list-style-type: none">• Evaluated Holding Company's accounting policies with respect to recognition of tax credits in accordance with Ind AS 12 'Income Taxes'.• We assessed the Management's long term financial projections and the key assumptions used in the projections by comparing it to the approved business plan and projections.• We involved our tax specialists to evaluate the Company's tax position by comparing it with prior years and past precedents.• We assessed the disclosures in accordance with the requirements of Ind AS 12 'Income Taxes'. <p>Our procedures as mentioned above did not identify any findings that were significant for the financial statements as whole in respect of recognition of tax credits.</p>

Information other than Consolidated Financial Statements and Auditor's Reports thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon. The information included in the annual report is expected to be made available to us after the date of the auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the applicable laws and regulations.

Responsibility of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India including the Ind AS specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing their financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system in place, with reference to the consolidated financial statements and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are independent auditors to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entity included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

PDS Multinational Fashions Limited

We communicate with those charged with governance of the Holding Company and such other entity included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2019 and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements / financial information of a foreign subsidiary whose financial statements / financial information reflects total assets (before eliminating inter-company balances ₹ 1,753.17 lakh) of ₹ 218,977.36 lakh as at March 31, 2019 and total revenue (before eliminating inter-company transactions ₹ 3,569.57 lakh) of ₹ 647,200.44 lakh for the year ended March 31, 2019 and net cash inflows amounting to ₹ 12,676.72 lakh for the year ended March 31, 2019, as considered in the consolidated financial statements. These financial statements and other information have been audited by the other auditor whose report have been furnished to us by the Management and our opinion on the consolidated financial results, in so far as it relates to the amounts and disclosures included in respect of such subsidiary, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary, is based solely on the report of such other auditor.

Further, the above mentioned subsidiary is located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in its country and which have been audited by other auditor under generally accepted auditing standards applicable in that country. The Holding Company's Management has converted the financial statements of such subsidiary, located outside India from accounting principles generally accepted in their country to accounting principles generally accepted in India and has obtained a separate audit report for these conversion adjustments from the subsidiary's auditor. Our opinion, in so far as it relates to the financial information of such subsidiary located outside India, is based on the audit reports of the other auditor. We have also audited the conversion adjustments prepared by the Management of the Holding Company.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditor.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditor on separate financial statements and the other information of subsidiaries, as noted in the 'other matter' paragraph we report, to the extent applicable, that:
 - a) We/the other auditor whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and report of the other auditor.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including (including Other Comprehensive Income), Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2019 taken on record by the Board of Directors of the Holding Company and the subsidiary company incorporated in India, none of the directors of the Group's companies incorporated in India is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy and the operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company incorporated in India, refer to our separate Report in "Annexure A". In respect of the foreign subsidiary, which is incorporated outside India, the provisions of Section 143(3)(i) on adequacy and operating effectiveness of the internal financial controls of Companies Act, 2013 are not applicable.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us and based on the report of other auditor on separate financial statements of the subsidiaries, as noted in the 'other matters' paragraph:

- i. The consolidated financial statements disclose impact of pending litigations on the consolidated financial position of the Group - Refer Note No. 43 to the consolidated financial statements.
 - ii. The Group did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiary incorporated in India.
2. With respect to the matter to be included in the Auditors' report under Section 197(16):

In our opinion and based on the consideration of report of the subsidiary incorporated in India, the managerial remuneration for the year ended March 31, 2019 has been paid /provided by the holding Company and its subsidiary incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V of the Act. In respect of foreign subsidiary, which is incorporated outside India, the provision of Section 197 of the Act are not applicable.

Annexure 'A' to the Independent Auditors' Report of even date on the Consolidated Financial Statement of PDS Multinational Fashions Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of **PDS Multinational Fashions limited** ("the Holding Company) and its one of the Subsidiary Company incorporated in India as of and for the year ended March 31, 2019, we have audited the internal financial controls with reference to financial statements of the Holding Company & its Indian Subsidiary, which are the companies covered under the Act, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its Subsidiary Company; which is a Company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to these consolidated financial statement criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting statements (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to these consolidated financial statements included obtaining an understanding of internal financial controls with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained in terms of the report referred to in the other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to these consolidated financial statements.

PDS Multinational Fashions Limited

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company, (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to these consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Holding Company and its Subsidiary Company which are incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to these consolidated financial statements and such internal financial controls with reference to these consolidated financial statements were operating effectively as at March 31, 2019, based on the internal control criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to Consolidated financial statements for the year ended March 31, 2019

Note 1: Corporate Information

PDS Multinational Fashions Limited is a Public Limited Company (Hereinafter referred as 'the Company') domiciled in India and has its registered office at 758 & 759, 2nd Floor, 19th Main, HSR Layout, Sector-II, Bangalore -560102, Karnataka. The Company along with its subsidiary (collectively referred to as "the Group"), is engaged in trading of garments, investment holding, design, development, marketing, sourcing and distribution of readymade garments of all kinds and other consumer products worldwide. The Company is also engaged in the business of holding, owning, leasing or licensing real estate. The Company has its primary listings on Bombay Stock Exchange and National Stock Exchange in India.

Note 2: Statement of Compliance

The financial statements are prepared on accrual basis under historical cost convention except for certain financial instruments which are measured at fair value. These financial statements have been prepared on going concern basis and in accordance with the Indian Accounting Standards (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Companies Act, 2013, as applicable. The accounting policies are applied consistently to all the periods presented in the financial statements.

Going Concern: The board of directors have considered the financial position of the Company at 31st March 2019 and the projected cash flows and financial performance of the Company for at least twelve months from the date of approval of these financial statements and believe that the plan for sustained profitability remains on course.

Basis of Preparation and presentation

The financial statements have been prepared on the historical cost convention on accrual basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the relevant accounting policies mentioned. The financial statements are presented in ₹ and all values are rounded to the nearest Lakhs except otherwise stated.

Recent Accounting Pronouncement

In March 2019, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2019, notifying amendments to Ind AS 12 'Income Taxes', introduced the Appendix 'C' to Ind AS 12 'Uncertainty over Income Tax Treatments', amendments to Ind AS 19 'Employee Benefits' and also introduced new standard Ind AS 116 'Leases'. These amendments rules are applicable to the Company from April 1, 2019.

Ind AS 116 Leases: On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 116, Leases. Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related Interpretations. The Standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value. Currently, operating lease expenses are charged to the statement of Profit & Loss. The Standard also contains enhanced disclosure requirements for lessees.

Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments: On March 30, 2019, Ministry of Corporate Affairs has notified Ind AS 12 Appendix C, Uncertainty over Income Tax Treatments which

is to be applied while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which are to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax Credits and tax rates.

Amendment to Ind AS 12 – Income taxes: On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes. The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Amendment to Ind AS 19 – Plan amendment, curtailment or settlement: On March 30, 2019, Ministry of Corporate Affairs issued amendments to Ind AS 19, 'Employee Benefits', in connection with accounting for plan amendments, curtailments and settlements.

The amendments require an entity:

- to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and
- to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling.

Amendment to Ind AS 23 'Borrowing Costs'

The amendments to the guidance in Ind AS 23, 'Borrowing Costs' clarifies the following:

While computing the capitalisation rate for funds borrowed generally, Borrowing Costs applicable to Borrowings made specifically for obtaining a qualified asset should be excluded, only until the asset is ready for its intended use or sale.

Borrowing costs (related to specific borrowings) that remain outstanding after the related qualifying asset is ready for its intended use or sale would subsequently be considered as part of the general borrowing costs.

Amendment to Ind AS 28 'Investment in Associates and Joint Ventures'

The amendments to the guidance in Ind AS 28 'Investment in Associates or Joint Ventures' clarifies that an entity applies Ind AS 109 Financial Instruments, to long term interests in an associate or joint venture but to which the equity method is not applied.

Amendment to Ind AS 103 'Business Combinations'

The amendments to the guidance in Ind As 103, 'Business Combinations', clarifies that when an entity obtains control of a business that is joint operation, then the acquirer considers such an acquisition as a business combination achieved in stages and re-measures previously held interest in that business.

The Company is currently evaluating the effect of these amendments on the standalone financial statements.

Application of New Accounting Pronouncements

The following Ind As pronouncements pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules 2018, were applied by the Company during the year:

Ind As 115, Revenue from Contracts with Customers with effect from April 1, 2018

Appendix B to Ind AS 21, Foreign Currency Transactions and advance consideration with effect from April 1, 2018

In case of Multinational Textiles Group Limited, the Group has applied IFRS 9 and IFRS 15 for the first time from April 1, 2018. Several other amendments and interpretations were applied for the first time from April 1, 2018 but do not have a material impact on the consolidated financial statements of the Group. The Group has not early adopted any standards, interpretations or amendments that have been issued but are not yet effective.

Principles of Consolidation

The consolidated financial statements relate to the Group. The consolidated financial statements have been prepared on the following basis:

- (i) The financial statements of the Wholly Owned Foreign Subsidiary and its Step Down Subsidiaries companies used in the consolidation are drawn upto the same reporting date as that of the group i.e. March 31, 2019.
- (ii) The financial statements of the group and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses after eliminating intra group balances, intra group transactions and resulting unrealised profits or losses, unless cost cannot be recovered.
- (iii) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and

other events in similar circumstances and are presented to the extent possible, in the same manner as the company's standalone financial statements.

- (iv) Non-Controlling Interest in the Equity & Results of the entities that are controlled by the Company is shown as a separate item in the Consolidated Financial Statements. The excess of cost to the group of its investments in subsidiary companies over its share of the equity of the subsidiary companies at the date on which the investment in the subsidiary companies where made, is recognised as 'Goodwill' being an asset in the consolidated financial statements and is tested for impairment on annual basis. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investment of the group, it is recognised as 'Capital Reserve' and shown under the head 'Reserves and Surplus', in the consolidated financial statements. The 'Goodwill' / 'Capital Reserve' is determined separately for each subsidiary group and such amounts are not set off between different entities.
- (v) The Details of wholly-owned foreign subsidiary and its step down subsidiary companies that have been considered in the preparation of the consolidated financial statements are as under:

Note 3: Significant accounting judgements, estimates and assumptions

- a) The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amount of revenues and expenses for the years presented. Actual results may differ from the estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods affected.

Judgements, Estimates and Assumptions:

In the process of applying the Group's accounting policies, management has made the following judgements, estimates and assumptions which have the most significant effect on the amounts recognised in the financial statements:

Revenue recognition and presentation

The Company assess its revenue arrangements against specific criteria, i.e. whether it has exposure to the significant risks and rewards associated with the sale of goods or the rendering of services, in order to determine if it is acting as a principal or as an agent. The Group has concluded that it is operating on a principal to principal basis in all its revenue arrangements. When deciding the most appropriate basis for presenting revenue or costs of revenue, both the legal form

and substance of the agreement between the Group and its business partners are reviewed to determine each party's respective role in the transaction.

Useful lives of property, plant and equipment

The Group reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

Income taxes

The Group is subject to income tax laws as applicable in India. Significant judgment is required in determining provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

In Case of Multinational Textile Group Limited

Impairment of Inventories

Management reviews the ageing analysis of inventories of the Group at the end of each reporting period, and makes provision for obsolete and slow-moving inventory items identified that are no longer suitable for sale. The assessment of the provision amount required involves management judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such differences will have an impact on the carrying value of the inventories and the provision charge/write-back of provision for obsolete and slow-moving inventory items in the period in which estimate has been changed.

Impairment of Goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value-in-use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

Foreign payables and foreign receivables

Certain foreign payables and foreign receivables are not translated at the rates prevailing on the balance sheet date, because in the directors' opinion the payables are covered by the forward exchange contracts and the receivables will be collected at the sterling amount in the consolidated financial statements. Any net overstatement or net understatement of foreign exchange differences is not considered to be material.

Impairment of available for sale investments

Before April 1, 2018, the Group classified certain assets as available for sale and recognised movements of their fair values in Equity. When the fair value declined, management made assumptions about the decline in value to determine whether there was an impairment that should be recognised in Statement of Profit & Loss.

Valuation of Financial Instruments

When the fair value of financial assets and financial liabilities recorded in the Statement of financial position cannot be derived from active markets, their fair value is determined using

valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing the fair values. The judgements include consideration of inputs such as liquidity risks, credit risks and volatility in market. Changes in assumptions about these factors could affect the reported fair value of the financial instruments.

b) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

Assets:

An asset is treated as current when it is:

- i) Expected to be realized or intended to be sold or consumed in normal operating cycle.
- ii) Held primarily for the purpose of trading
- iii) Expected to be realized within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

Liabilities:

A liability is current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating cycle:

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. Based on the operation, the group has identified twelve months as its operating cycle.

c) Property, Plant and Equipment (PPE)

Property, plant and equipment and capital work in progress are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Such cost includes expenditure that is directly attributable to the acquisition of the asset. In the case of Multinational Textile Group Limited and its Subsidiaries cost include transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of fixed assets.

The company had applied for one time transition exemption of considering the carrying cost on the transition date i.e. 1st April 2016 as the deemed cost under Ind AS.

Subsequent costs: The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item of property, plant and equipment, if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably with the carrying amount of the replaced part getting derecognized. The cost for day-to-day servicing of property, plant and equipment are recognized in statement of profit and loss as and when incurred.

Decommissioning Costs : The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Capital work in progress: Capital work in progress comprises the cost of fixed assets that are not ready for their intended use at the reporting date.

Depreciation: Depreciation on PPE, except leasehold improvements, is provided on straight-line method over the useful lives of assets as per Schedule II to the Companies Act, 2013. Depreciation for assets purchased / sold during a period is proportionately charged to Statement of Profit & Loss. Leasehold improvements are amortized over the lease term or the useful life of the assets whichever is earlier.

When parts of an item of an asset have different useful lives, they are accounted for as separate items (major components) of fixed assets.

In case of Multinational Textile Group Limited:-

Depreciation is recognized on a straight line basis over the estimated useful life of each part of an item of property, plant and equipment. Leased Assets are depreciated over the shorter of the lease term and their useful lives; it is reasonably certain that the Group will obtain the ownership by the end of the lease term

The estimated useful lives are as under:

Leasehold land and buildings	Lower of the lease term and 33.33%
Infrastructure	20%
Computer and equipment	10% - 33.33%
Fixtures, fittings and equipment's	10% - 33.33%
Motor vehicles	14% - 33.33%
Plant & Machinery	20% - 25%

- Cost of Leasehold land is amortized over the period of lease.

d) Intangible assets

Recognition and measurement

Intangible assets that are acquired by the Group are measured initially at cost. Intangible assets with finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses, if any. The company had applied for one time transition exemption of considering the carrying cost on the transition date i.e. 1st April 2016 as the deemed cost under Ind AS.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognized for non-controlling interests and any fair value of the group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. Where the recoverable amount of the cash generating unit is less than the carrying amount, a goodwill impairment loss is recognised.

e) Investment Property

(i) Recognition and measurement

Investment Property comprise of Freehold Land and Building.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment

loss, if any. The Group measures investment property using cost based measurement and, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the Statement of Profit and Loss and other Comprehensive Income in the year of derecognition (as applicable)

(ii) Depreciation

Depreciation on Investment Property is provided, under the Straight Line Method, pro rata to the period of use, based on useful lives specified in Schedule II to the Companies Act, 2013.

In case of Multinational Textile Group Limited:-

Depreciation is calculated on the straight line basis to write off the cost of each investment property, which is shorter of 50 years and the terms of the lease.

f) Borrowing costs

Borrowing costs consists of interest and amortization of ancillary costs that an entity incurs in connection with the borrowing of funds. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

g) Foreign currencies

Functional and presentational currency

The Group financial statements are presented in Indian Rupees (₹) which is also the Company's functional currency. Functional currency is the currency of the primary economic environment in which a Company operates and is normally the currency in which the Company primarily generates and expends cash. All the financial information presented in ₹ in lakhs except where otherwise stated. The Company has applied for one time transition exemption of considering the carrying cost on the transition date i.e 1st april, 2016 as the deemed cost under Ind AS

Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at the functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

h) **Revenue Recognition**

Effective 01 April 2018, the Company has adopted Indian Accounting Standard 115 (Ind AS 115) - 'Revenue from contracts with customers'. The revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, the company follows the five step approach as under:

- (i) Identify the contract with a customer
- (ii) identify the performance obligations in the contract
- (iii) determine the transaction price,
- (iv) allocate the transaction price to the performance obligations in the contract
- (v) recognize revenues when a performance obligation is satisfied.

Other Income

- Interest income is recognized on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of financial asset.
- Investment income is recognized as and when the right to receive the same is established.
- Handling Fee income is recognized in the period in which the services are rendered.
- Commission Income is recognized when the services are rendered.
- Dividend Income is recognized when the right to receive is established.
- Any Other Income is recognized on accrual basis.

i) **Inventories**

- i) Inventories of Traded Goods are valued at lower of cost and net realizable value. Cost includes purchase price, duties, non refundable taxes and all other costs incurred in bringing the inventories to their present location. Cost is calculated on First in First out (FIFO) method.
- ii) In case of foreign subsidiary work in progress includes an appropriate share of production overheads based on normal operating capacity. Net Realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and selling expenses.

j) **Leases**

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. All the lease other than Finance lease are classified as operating lease.

Finance lease

Finance leases are capitalised at the commencement of the lease at the lower of present value of minimum lease payments or inception date fair value of the leased property. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of

Profit and Loss. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease

A lease where risks and rewards incidental to ownership of an asset substantially vest with the lessor is classified as operating lease. Lease payments under operating leases are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

The Group has ascertained that the payments to the lessor that are structured in line with expected general inflation to compensate for the lessor's expected inflationary cost are not straight-lined. Hence, the lease payments are recognised on an accrual basis as per terms of the lease agreement.

k) **Employee's Benefits**

Short Term Employee Benefits: All employee benefits expected to be settled wholly within twelve months of rendering the service are classified as short-term employee benefits. When an employee has rendered service to the Group during an accounting period, the Group recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service as an expense unless another Ind AS requires or permits the inclusion of the benefits in the cost of an asset. Benefits such as salaries, wages and short-term compensated absences, bonus and ex-gratia etc. are recognised in Statement of Profit and Loss in the period in which the employee renders the related service.

Defined contribution plan: A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions to a statutory authority and will have no legal or constructive obligation to pay further amounts. Provident Fund and Employee State Insurance Schemes are defined contribution scheme and contributions paid / payable are recognised as an expense in the Statement of Profit and Loss during the year in which the employee renders the related service.

Defined benefit plan

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Group has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount based on the respective employee's salary and the tenure of employment. The Group accounts for the liability for gratuity benefits payable in future based on an independent actuarial valuation report using the projected unit credit method as at the year end.

The obligations are measured at the present value of the estimated future cash flows. The discount rate is generally based upon the market yields available on Government bonds at the reporting date with a term that matches that of the liabilities.

Re-measurements, comprising actuarial gains and losses including, the effect of the changes to the asset ceiling (if applicable), is reflected immediately in Other Comprehensive Income in the Statement of Profit and Loss. All other expenses

related to defined benefit plans are recognised in Statement of Profit and Loss as employee benefit expenses. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

Other Long Term Benefits

Long term compensated absences are provided for on the basis of actuarial valuation, using the projected unit credit method, at the end of each financial year. Actuarial gains/ losses, if any, are recognised immediately in the Statement of Profit and Loss.

- In case of foreign subsidiaries

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The calculation is performed annually by a qualified actuary using the projected unit credit method.

i) Provisions, Contingent liabilities and Contingent assets

General

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed in the case of;

- i) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle obligation;
- ii) a present obligation arising from past events, when no reliable estimate is possible.

Contingent assets are neither recognised nor disclosed. However, when realisation of income is virtually certain, related asset is recognised.

Provision, contingent liabilities and contingent assets are reviewed at each balance sheet date and adjusted where necessary to reflect the current best estimate of obligation or asset.

m) Investments

The investments are classified as follows:

Held for Trading: Trading securities are those (both debt & equity) that are bought and held principally for the purpose of selling them in near term, such securities are valued at fair value and gain/loss is recognized in the Statement of Profit & Loss.

Held to Maturity: Investment in debt & capital guard products are classified as held to maturity only if the company has the positive intent and ability to hold these securities to maturity, such securities are held at historical cost.

Available-for-sale financial assets: Available-for-sale financial assets are non-derivative financial investment in listed and unlisted equity & debt instruments that are designated as

available for sale or are not classified in any of the other categories. Subsequent to initial recognition, available-for-sale financial assets are measured at fair value, with gains or loss recognized as a separate component of equity as "Investment Revaluation Reserve" until the investment is derecognized or until the investment is determined to be impaired, at which time the cumulative gain or loss previously reported in equity is included in the Statement of Profit & Loss.

When the fair value of unlisted equity securities cannot be reliably measured because of significant variability in the range of fair value estimates or, where the probabilities of the various estimates within the range cannot be reasonably assessed, such securities are stated at cost less any impairment.

Fair value

The fair value of investments that are actively traded in organized financial markets is determined by reference to quoted market bid prices at the close of business at the balance sheet date.

n) Financial instruments and Hedging

A financial instrument is a contract that gives rise to a financial asset for one entity and a financial liability or equity instrument for another entity. Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

i) Initial recognition and measurement

Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset is initially recognised at fair value. In case of financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost are recognised in the statement of profit and loss. In other cases, the transaction cost are attributed to the acquisition value of the financial asset.

ii) Classification and Subsequent measurement

(a) Financial Assets

For purposes of subsequent measurement, financial assets are classified in following categories:

- Financial Asset carried at amortised cost
- Financial Asset at fair value through other comprehensive income (FVTOCI)
- Financial Asset at fair value through profit and loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

• Financial Asset carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

• Financial Asset at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at

fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- **Financial Asset at fair value through profit and loss (FVTPL)**

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

- **Equity investment in Associates**

Investments representing equity interest in associates are carried at cost less any provision for impairment. Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable.

De-recognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised (i.e. removed from the Company's Balance Sheet) when:

- The contractual rights to receive cash flows from the asset has expired, or
- The Group has transferred its contractual rights to receive cash flows from the financial asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement~ and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(b) Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, security deposits received etc.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at amortised cost
- Financial liabilities at fair value through profit and loss (FVTPL)

Financial liabilities at Amortized cost

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender

on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(c) Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously

In case of Foreign Subsidiaries: -

(d) Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps, full currency swaps and forward commodity contracts, to hedge its foreign currency risks, interest rate risks and commodity price risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to statement of profit and loss.

The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles.

Fair value hedges: A hedge of the exposure to changes in the fair value of recognized asset or liability or an unrecognized firm commitment (except for foreign risk); or identified portion of such asset, liability or firm commitment (except for foreign risk), or an identified portion of such asset, liability or firm commitment that is attributable to a particular risk and could affect profit or loss.

Cash flow hedges: A hedge of the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction, and could affect profit or loss.

The effective portion of the gain or loss on the hedging instrument is recognized directly in the equity, while the ineffective portion is recognized in the Statement of Profit & Loss.

o) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgments in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

p) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at the end of

each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit ('CGU') is the greater of its value in use or its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets ('CGU').

An impairment loss is recognized, if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount and is recognised in statement of profit and loss.

Impairment losses recognised in prior periods are assessed at end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

q) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (a) In the principal market for the asset or liability, or
- (b) In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

r) Taxes

Current income tax

Current tax assets are offset against current tax liabilities if, and only if, a legally enforceable right exists to set off the recognised amounts and there is an intention either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and is adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax

Minimum Alternate Tax (MAT) paid in the year is charged to the Statement of Profit and Loss as current tax. The Company recognises MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period. In accordance with Ind AS 12 Company is grouping MAT credit entitlement with Deferred Tax Assets / Liability (Net).

PDS Multinational Fashions Limited

s) **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash balance on hand, cash balance at banks and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management. (If any)

t) **Earnings per share (EPS)**

In determining earnings per share, the Company considers the net profit after tax and includes the post tax effect of any extra ordinary items.

- Basic earning per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

- For the purpose of calculating Diluted Earning per share, the number of shares comprises of weighted average shares considered for deriving basic earning per share and also the weighted average number of equity share which could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. A transaction is considered to be antidilutive if its effect is to increase the amount of EPS, either by lowering the share count or increasing the earnings.

u) **Segment Reporting**

The Company has the policy of reporting the segments in a manner consistent with the internal reporting provided to the chief decision maker. The chief decision maker is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

a) Performance Obligation		
Revenue is recognised upon transfer of control of promised products and services to the customers. During the year, the Group has not entered into long term contracts with customers and accordingly disclosures of unsatisfied or remaining performance obligation (which is affected by several factors like changes in scope of contracts, periodic revalidations, adjustment for revenue that has not been materialized, tax laws etc.) are not applicable to the Group.		
b) Trade Receivables and Contract Balances		
For Trade Receivables, refer Note No. 13. Further, the Group has no contracts where the period between the transfer of the promised goods or services to the customer and payment terms by the customer exceeds one year. In light of above;		
- it does not adjust any of the transaction prices for the time value of money, and		
- there is no unbilled revenue as at March 31, 2019.

Total	62.12	16.21

The contribution payable to these schemes are at the rates specified in the rules of the schemes.

- b) **Defined benefit plans (In respect of Holding Company and the Indian subsidiary)**

In accordance with Ind AS 19 "Employee benefits", an actuarial valuation on the basis of "Projected Unit Credit Method" was carried out, which enable to determine the present value of obligations. "Projected Unit Credit Method" recognizes each period of service as giving rise to additional unit of employees benefit entitlement and measures each unit separately to built up the final obligation.

i) **Gratuity Scheme**

Under defined benefit plan, gratuity is calculated as 15 days salary for every completed year of service or part thereof in excess of 6 months and is payable on retirement / termination/ resignation. The benefit vests on completing 5 years of service by the employee. Provision of such gratuity asset/ Liability in the books of accounts has been made on the basis of actuarial valuation as per projected unit credit method.

ii) **Compensated Absences**

Under compensated absences plan every employee is entitled to the benefit equivalent to 15 days leave salary for every completed year of service subject to maximum 30 accumulations of leaves. The salary for calculation of earned leave is last drawn salary. The same is payable during the service, early retirement, withdrawal of scheme, resignation by employee or upon death of employee.

c) Discount rate used in determining fair value

The interest rate used to discount estimated future cash flows, where applicable, are based on the incremental borrowing rate of borrower which in case of financial liabilities is average market cost of borrowings and in case of financial asset is the average market rate of similar credit rated instrument. The Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- Fair values of the interest-bearing borrowings and loans are determined by using DCF method using discount rate that reflects the rate as at the end of the reporting period.
- Fair value for security deposits paid & received (other than perpetual security deposits) has been presented based on the discounting factor as at the reporting date.

(All amounts in ₹ lakhs, unless otherwise stated)

- iii) Fair value for all other non-current assets and liabilities is equivalent to the amortised cost, interest rate on them is equivalent to the market rate of interest.
- iv) For other financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 41 : Fair Value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that has a significant effect on the fair value measurement are observable, either directly or indirectly.

Level 3: Valuation techniques for which the lowest level input which has a significant effect on the fair value measurement is not based on observable market data.

Note 42: Financial risk management objectives and policies

The Group principal financial liabilities comprise trade and other payables, borrowings, current maturity of borrowings, interest accrued and capital creditors. The main purpose of these financial liabilities is to finance the Group operations and to provide guarantees to support its operations. The Group principal financial assets includes, Security Deposits, Trade Receivables, Cash and Cash equivalents, Other Bank Balances. The Group is exposed to credit risk, liquidity risk and market risk. The Group senior level management oversees the management of these risks and advises on the appropriate financial risk governance framework.

A. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and currency risk.

i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group exposure to the risk of changes in market interest rates relates primarily to the debt obligations with floating interest rates. The Group has significant exposure to interest rate risk as shown below. The Group main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to interest rate risk.

(All amounts in ₹ lakhs, unless otherwise stated)

Particulars	Increase or decrease in basis points	Effect on profit before tax
31-Mar-19		
INR	+50	(315.76)
INR	-50	315.76
31-Mar-18		
INR	+50	(243.89)
INR	-50	243.89

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

ii) **Foreign currency risk**

Foreign currency risk is the risk that the fair value of future cash flows of an exposure will fluctuate because of changes in exchange rates. The following tables demonstrate the sensitivity to a reasonably possible change in USD, GBP, EURO, HKD, AED and BDT exchange rates, with all other variables held constant.

Particulars	Changes in USD rate	Effect on profit before tax
31-Mar-19	+10%	(174.83)
	-10%	174.83
31-Mar-18	+10%	522.32
	-10%	(522.32)

B. Credit risk

Credit risk is the risk that counterparty will default on its contractual obligations resulting in finance loss to the Group. The Group continuously monitors defaults of customers and other counterparties and incorporate this information into its credit risk control. The Group also uses expected credit loss model to assess the impairment loss in trade receivables and makes an allowance of doubtful trade receivables using this model. The Credit risk also arises from cash and cash equivalents, deposits from banks and other financial assets measured at amortised cost. The maximum credit risk at the reporting date is as under:

	As at March 31, 2019	As at March 31, 2018
Financial Assets Measured At Fair Value Through Profit Or Loss	4,452.38	-
Financial Assets Measured At Fair Value Through Other Comprehensive Income	1,214.91	8,255.63

Investment in Joint Venture	1,444.62	-
Security deposits	832.75	823.91
Interest accrued on fixed deposits	0.67	0.31
Deposits with original maturity of more than 12 months	9.40	1.25
Trade receivable	102,871.41	78,256.20
Cash and cash equivalents	24,059.49	11,155.85
Other bank balances	12,964.10	11,385.21
	149,110.61	109,878.36

C. Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group objective is to, maintain optimum levels of liquidity to meet its cash and collateral requirements. It maintains adequate sources of financing including loans from banks at an optimised cost.

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

Segment information is presented in respect of the Group's business segments. The Group's primary format for segment reporting is based on business segments.

Inter-segment pricing is determined on an arm's length basis.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Other items comprise mainly investments and related revenue, loans and borrowings and related expenses, corporate assets (primarily the Group's headquarters) and head office expenses, and income tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.
